MINE MATRIX: THE TREASURE HUNT

Rules:

1) Participants have to form groups of 3. All the members should be from the same institute.

2) Only the team leader has to register.

3) The earliest you reach for registration, the quicker you may reach to the checkpoints.

4) All the team members have to be together at all times.

5) The questions will be based on minerals, mining and related activities, machinery, etc.

6) The rooms will be named as one of the answers to the theory question given. You will have to find the required room, scan the QR code available there, open the pdf using the password you get at the last checkpoint, and repeat the steps until you reach the final destination.

The first 3 teams who reach the end checkpoint is the winner.

Any event will be cancelled if we will be having less than 6 participants in group or individuals as mentioned in the particular event.
